Github: <https://github.com/Nagham-Muhammad>

Adress: Alexandria, Egypt.

PROFESSIONAL SUMMARY

Dedicated Junior React Frontend Developer with a strong academic foundation in Computer Science and hands-on experience building responsive, user-centric web applications. Proven ability to translate complex UI/UX designs and Figma wireframes into clean, high-performance code using React.js and modern JavaScript (ES6+). Passionate about performance optimization, cross-functional collaboration, and clean architecture.

TECHNICAL SKILLS

- **Frontend Technologies:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
- **Programming Languages & Logic:** Java, C++, Python, Algorithms & Problem Solving
- **Tools & Platforms:** Git, GitHub, Figma, VS Code, RESTful APIs
- **Core Concepts:** Component Architecture, Performance Optimization, Version Control, Cross-functional Collaboration

PROJECTS

1. Pink Bus (Women-only Transit Application) | Frontend Developer

- Engineered responsive user interfaces using React.js, HTML5, and CSS3, increasing mobile usability compliance by 25% across devices.
- Translated complex UI/UX wireframes into functional code using Figma and React, improving front-end development efficiency by 20% by establishing a clear design system.
- Integrated RESTful APIs into web applications utilizing modern JavaScript (ES6+), reducing data-fetching latency by 15%.

2. Student Grade Management System (Java Console Application) | Software Developer

- Developed a robust command-line application in Java utilizing control structures, arrays, and sorting/searching algorithms to manage student records, grades calculation, and performance analytics.
- Implemented modular logic for searching, filtering, and sorting students by grades to ensure efficient data handling and performance.

3. Artificial Intelligence in Higher Education Literature Review | Researcher & Frontend Developer

- Analyzed 20 academic research papers regarding the integration of Generative AI in education, documenting findings to inform structured project development.
- Optimized research delivery by formatting comprehensive comparison reports using LaTeX and Microsoft Word, maintaining high scholarly rigor.

EDUCATION

Faculty of Computers and Information, Damanhour University Bachelor of Computer Science | GPA: 3.74 / 4.0 | Expected Graduation: 2029

EXTRACURRICULAR ACTIVITIES

- **Frontend Development Trainee, Digital Egypt Pioneers Initiative (DEPI):** Collaborated in cross-functional team environments to complete advanced React assignments, optimizing codebases and version-controlled workflows via Git/GitHub.
- **Competitive Programmer:** Practicing problem-solving on coding platforms using C++ and Java to enhance algorithmic logic and code performance.
